INTERNATIONAL AMATEUR RADIO UNION REGION 1
ARDF WORKING GROUP
MINUTES
48th Plenary Meeting of the IARU Region 1 ARDF Working Group

Date: 17 August 2026
Time: 16:00–18:03
Venue: Targoviste, Romania
Chair: Dušan Ćeha, YU1EA

1. Opening of the Meeting
The meeting was opened by the Chairman of the IARU R1 ARDF Working Group, Dušan Ćeha, YU1EA. The Chairman welcomed Oliver Tabakovski, Z32TO, member of the IARU R1 E.C., Gu Xing Dong president of Chinese Radio Sport and Orienteering Association, the Working Group members and guests.

2. Introduction of the WG Members
The present ARDF WG members introduced themselves. See the list of participants in **Appendix A.**
Out of 27 WG members, 19 were present in person or represented by proxy.

3. Apologies for Absence and Proxies
Apologies for absence were received from: Chermen Guliev, UA3BL, representing SRR., Enes Saric, E72ES, representing ARABIH, Kimo Lehtosaari, OH2JKU, representing SRAL.
The following proxies were received:
Gerhard Lettner, OE6TGD, gave his proxy to Attila Mezei, OE1LTS.
Gabor Pap, HA8MGC, gave his proxy to Lajos Krajcar, HA2QW.
Hans Jurg Reinhart, HB9CFB, gave his proxy to Martin Lerjen, HE9LER.
Bob Titterington, G3ORY, gave his proxy to John Marriott, M0OJM.
Dick Fijlstra, PA0DFV, gave his proxy to Marcel Daverveld, PE5TT.
Tomasz Deptulski, SP2RIP, gave his proxy to Jan Mazurek, SP8NFM.

4. Approval of the Agenda
The Chairman proposed approval of the agenda. Before the approval, Jiri Mareček OK2BWN proposed that two items be added:
CRC proposal to host the IARU World Youth ARDF Championship in 2029, to be added to Agenda Item 7.
TX codes used at the Sprint competition, to be added to Agenda Item 10.
The amended agenda of the 48th IARU R1 ARDF WG Plenary Meeting was approved unanimously.
See Appendix B.

5. Report on the 8th IARU World Youth ARDF Championship in Hungary
The Chairman briefly reported on the 8th IARU World Youth ARDF Championship, held in Veszprém from 1 to 5 July 2026. He noted that 148 competitors and visitors from 17 countries participated and emphasized that child protection measures were properly implemented.
Lajos Krajcar stated that he had nothing to add and that the detailed report had been sent to the Chairman of the ARDF Working Group and was available to all members.
Oliver Tabakovski stated that he had attended the WYAC on behalf of the IARU R1 E.C. He noted that the organizer had made every effort to organize the Championship, that the complete protocol had been carried out

according to the instructions, and that the relations and spirit of friendship among the participants were at a high level. He congratulated all participants and organizers.
As there were no further comments, the ARDF WG unanimously approved the report. **See Appendix C**.

6. 23rd IARU World ARDF Championship in Korea, 2027
The President of KARL apologized for being unable to attend the meeting and submitted an official preliminary report.
The Championship will be organized in Mungyeong, Gyeongsangbuk-do. The venue is approximately 220 km from Incheon International Airport. KARL can provide transportation from the airport to the venue upon request. The provisional event schedule is 26 September–2 October 2027.
The organizer proposed Mr Ole Garpestad, LA2RR, as Chairman of the International ARDF Jury.
The ARDF WG unanimously accepted the preliminary report and unanimously approved Ole Garpestad, LA2RR, as Chairman of the International Jury for the 23rd IARU World ARDF Championship.
See Appendix D.

7. Future IARU ARDF Championships
The Working Group discussed the venues and hosting societies for the following Championships:
IARU World Youth ARDF Championships 2027, 2028 and 2029.
IARU R1 ARDF Championship 2028.
IARU World ARDF Championships 2029 and 2031.

A) 9th IARU World Youth ARDF Championship 2027 – Moldova
FRRM/ARM submitted an application to host the 9th IARU World Youth ARDF Championship in 2027. The event will take place in Chisinau, Republic of Moldova, with the planned period of 27 June–3 July 2027. The estimated all-inclusive package price is EUR 350 per person.
Lyudmila, representing FRRM/ARM, explained that the intention was to accommodate all participants at one location, which would provide security and facilitate transportation to and from the competition venue, while also providing opportunities for participants to socialize.
Kai Pastor noted that, according to the Rules, the starting fee must be independent of the accommodation package for participants who wish to arrange their own accommodation.
Lyudmila stated that in such a case the proposed starting fee would be EUR 50 per race. She also proposed Dušan Ćeha, YU1EA, as Chairman of the International Jury for WYAC 2027.
Decision: The IARU R1 ARDF WG unanimously approved a starting fee of EUR 50 per race and unanimously approved Dušan Ćeha, YU1EA, as Chairman of the International Jury for WYAC 2027.
See Appendix E.

B) 10th IARU World Youth ARDF Championship 2028 – Poland
The ARDF WG received the PZK (Polski Związek Krótkofalowców) application to host the 10th IARU World Youth ARDF Championship in 2028. The proposed host area is Lubaczów in south-eastern Poland. The Championship would be prepared by Stowarzyszenie Sportowe Roztocze as the leading local organizer, in cooperation with Skierniewickie Stowarzyszenie Radioorientacji, with the support of ARDF Poland and the relevant structures of PZK.
The proposed period is late June or early July 2028. A detailed organizational concept, including exact dates, location, transportation, preliminary budget and starting fees, will be submitted following consultation with the IARU R1 ARDF Working Group.
Jan Mazurek, SP8NFM, asked the WG to take the application into consideration and stated that further information concerning the organization would be provided. He also invited all societies to participate in the competition.
Decision: The PZK application to host the 10th IARU World Youth ARDF Championship in 2028 was approved unanimously. **See Appendix F.**

C) 11th IARU World Youth ARDF Championship 2029 – Czech Republic
On behalf of CRC (Czech Radio Club) and, represented by the Czech ARDF Association, an application was received to host the 11th IARU World Youth ARDF Championship in 2029. The event is planned for the end of June 2029 in Liberec, in the north-western part of the Czech Republic.
The competition program would consist of two Classic events and a Sprint event. The competition areas would be within approximately 45 minutes' drive of the event center. Accommodation would be provided in a school-type or university campus facility at reasonable prices.
Decision: The CRC application to host the 11th IARU World Youth ARDF Championship in 2029 was approved unanimously. **See Appendix G.**

D) 24th IARU World ARDF Championship 2029 – Bulgaria
BFRA (Bulgarian Federation of Radio Amateurs) submitted an application to host the 24th IARU World ARDF Championship. The proposed venue is Bansko, Bulgaria.
The proposed starting fee is EUR 50 per start and would remain unchanged. BFRA has received assurance from the Bulgarian Ministry of Youth and Sports that financial support will be provided, BFRA is confirmed as host at least one year in advance. This is one of the reasons BFRA is able to propose the low starting fee.
Viktor Cenkov stated that BFRA had extensive experience in organizing competitions and intended to organize the Championship to a high standard. Accommodation would be provided in a four-star hotel at the lowest possible price. He explained that Bansko had been selected because accommodation prices at that time were expected to be lower than in the Baltic area.
Jiri Mareček asked whether the date could be moved to the first part of September. Viktor Cenkov confirmed that BFRA could organize the Championship during September and accepted the proposal to hold it in the first part of September 2029.
Decision: The BFRA application to host the 24th IARU World ARDF Championship in 2029 was approved unanimously, with the event planned for the first part of September 2029. **See Appendix H**.

E) IARU R1 ARDF Championship 2028 and 2030
There were no applications for hosting the IARU R1 ARDF Championships in 2028 and 2030.
Oliver Tabakovski stated that, if the WG would like North Macedonia to host one of these events, he would discuss the possibility with the President of the national society. He mentioned Skopje as a possible location, subject to verification of suitable terrains and maps. He requested one to two weeks to investigate the possibilities and inform the WG.
No decision was taken at this stage.

8. Application for a New International Class Referee
An application for a new International Class ARDF referee was received from PZK: Jan Mazurek, SP8NFM. **See Appendix I.**
Decision: The ARDF WG unanimously approved the proposal from PZK.

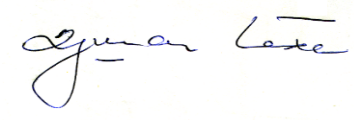

9. ARDF Rules Changes
A proposal concerning ARDF Rules submitted by Marc Vanhalst, ON6HI, from UBA, was presented to the Working Group. The detailed proposal had been distributed to all WG members. Additional details were discussed by Marc Vanhalst, ON6HI, Stipe Predanić, 9A5SP, Jiri Mareček, OK2BWN, Dušan Ćeha, YU1EA, and Kai Pastor, DG0YT.
Following the discussion, it was agreed that the proposal should be subject to a complete review, rechecking and correction before being submitted for consideration at the next ARDF WG meeting.
See Appendix J.

10. Any Other Business – TX Codes Used at the Sprint Competition
CRC presented a proposal concerning TX codes used at the Sprint competition. It was noted that the S code is no longer permitted in the Czech Republic, with MOE–MO5 and MO codes being used for unmanned ARDF beacons. CRC stated that the situation in other ARDF-active countries was not known.

The proposal was to allow alternative use of the following codes:
“slow MO” code (50 PARIS) for spectator control.
“fast MO” code (70 PARIS) for the finish beacon.
The frequency plan would remain unchanged. The proposed codes were considered logical and consistent with the codes used for other field controls in the Sprint competition.
Decision: The ARDF WG noted that organizers of IARU ARDF Championships must comply with national regulations in addition to the IARU ARDF Rules. Before any possible changes are made to the Rules or Technical Specifications, the actual situation in the Member Societies should be surveyed.
The ARDF WG therefore requested all WG members to check the national radiocommunication regulations in their countries, particularly those applicable to unmanned ARDF beacons, including band-plan segments, permitted codes, RF power and any mandatory callsign requirements.
The collected information may, if necessary, result in amendments to the Technical Specifications of ARDF Equipment. In the meantime, any necessary deviations from the Rules must be approved by the ARDF WG and announced in the event Bulletins.
Dušan Ćeha proposed that a letter be sent to all Member Societies on this issue. After receiving the responses, he will inform all members of the Working Group.
Decision: The proposal to send the letter to all Member Societies was approved.
See Appendix K.

11. Closing of the Meeting
The Chair of the IARU R1 ARDF WG thanked all WG members and guests for their contribution and closed the 48th Plenary Meeting at 18:03.

The Chair of the IARU R1 ARDF WG
Dušan Ćeha, YU1EA

International Jury:

Approved members of the Jury:

Chairman of the International Jury: Pavel Babeu, YO9TW (FRR)
Secretary of International Jury: Beata Parrag
Siting Referee: Gábor Pap, HA8MGC
Bulgaria - Viktor Tsenkov LZ3NN
Czechia - Miroslav Vlach, OK1UMY
Croatia - Zeljko Pilat, 9A2R
Germany - Nick Ivanchykhin DK2UA
Hungary - Anna Radics
Moldova - Ludmila Hudeaeva
Poland - Wladyslaw Pietrzykowski, SP9GNM
Romania - Adrian Marcu, YO7LOI
Russia - Alla Andriunina
Slovenia - Cufer Stanko, S57CD
Slovakia - Slavo Nosáľ
Ukraine - Liudmilla Panchuk

Referees:

Technical director: Robert Soket, HA5NP
Terrain referee: József Nagy, HG7JEC
Start referee: Zoltan Barna, HA5JAP
Finish referee: Tamas Varga, HA5TV

Decision and approvals of 1st Jury & Team Leader meeting, July 1, 20:30 in the event center.

- basic interpretation of the rules
- information about 2m classic race
- visitors can't go to finish area by car, they must use the buses
- spare receivers will be transferred at the end of the competition, these can be picked up in the organizer room
- first aid will be both in the start area and in the finish area

Oliver saying/requesting: every team leader should explain to the competitors we are here for competing, to avoid any misunderstanding, making this a friendly competition

Decision and approvals of 2nd Jury & Team Leader meeting, July 2, 14:30 in the finish area

- There were technical problems, First start delayed by 20 minutes. No protests.
- There was two competitors who did not punch the Beacon, the Finish referee read out the box, and was not found in it.
- No other remarks to the competition.
- There were also no serious injuries at the competitions, just small bruises and injured ankles which were treated on the spot.
- Site referee gave some information about the next day's competition Sprint

Decision and approvals of 3th Jury & Team Leader meeting, July 3, 11:30 in the finish area

- There were technical problems. First start delayed by 50 minutes No protests or complaints during the competitions. There were also no serious injuries at the competition.
- Site referee gave some information about the next day's competition Classic 80m

Decision and approvals of 4th Jury & Team Leader meeting, July 3, 21:00 in the event center.

sharing additional information

finish area changes: transportation between start and finish
buses will arrive to the start area

Tibor will walk a group towards to the finish area (1.2km) – this is at the edge of the terrain

Walking is only possible by an organizer

Competitors are not allowed to leave the finish area – people should wait for a group of people, escorted by an organizer (from the finish area to the start area where the buses park)

Finished competitors shouldn't do any communication to any active competitors on the way to the buses

2nd topic

Awarding ceremony

not bring flags, not to show them on podiums, no anthems are going to be played to any countries.

Reasoning: avoiding any possible conflict, avoiding any miscommunication that may occur.

Decision and approvals of 5th Jury & Team Leader meeting, July 4, 13:45 in the finish area

- There were no technical problems and no protests or complaints during the competitions.
- There were also no serious injuries at the competition.
- Chairman of the International Jury thanked members of the International Jury for a great and fruitful cooperation

A competitor fell ill in the forest. One of the tax collectors sat him down, gave him water, and brought him to the finish line by car, where the paramedics examined him and then took him to the hospital. He was kept under observation for one night, then he was able to travel home.

3.2 Accommodation and board : EUR 530 per whole event

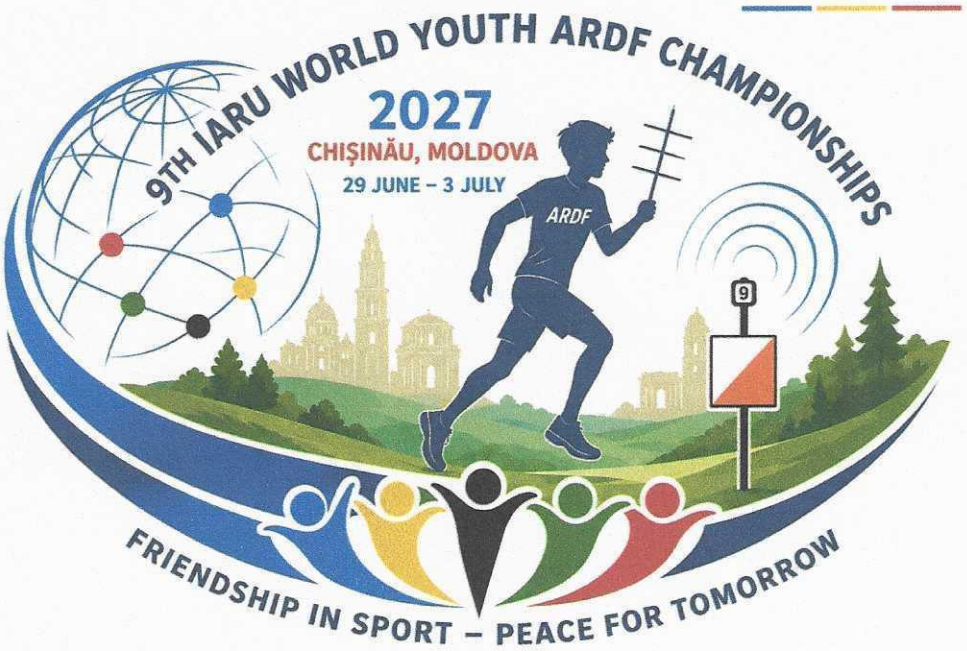

3.3 Total cost of the full package : EUR 850(Competitors), EUR 710(Team officials/Visitors)

※ There are no hotels or other accommodations nearby

4. FURTHER INFORMATION

Additional event information will be published in due course.

Federation of Radiosport of the Republic of Moldova (FRRM/ARM)

LETTER OF INTENT

To Host the 9th IARU World Youth ARDF Championships 2027

Friendship in Sport – Peace for Tomorrow

Dear Members of the IARU ARDF Working Group,

The future of humanity is shaped today—in the hearts and minds of young people. This is why international youth sporting events are far more than competitions. They are schools of life where respect, responsibility, friendship and mutual understanding are nurtured across borders, cultures and languages.

Today, as our world faces increasing challenges, youth sport has become one of the strongest forces for bringing people together. On the competition course there is no place for prejudice or division. There is only fair play, respect, determination and the joy of sharing the same passion.

Every championship gives young athletes a unique opportunity not only to compete, but to discover new cultures, build lifelong friendships and learn that cooperation is stronger than confrontation. Today's young competitors are tomorrow's scientists, engineers, teachers, physicians, entrepreneurs and leaders. The friendships they build today help create a more peaceful and understanding world tomorrow.

We firmly believe that lasting peace cannot be achieved by agreements alone. Peace is created by people. It begins with educating a generation whose natural values are mutual respect, cooperation and friendship.

For this reason, hosting a World Youth Championship is much more than organizing a sporting event. It is an investment in future generations—young people who will choose dialogue over

division, cooperation over confrontation and friendship over hostility. Through international sport, we help raise a generation capable of building a better and more peaceful world.

Inspired by these values, the **Federation of Radiosport of the Republic of Moldova (FRRM/ARM)** has the honor to express its intention to host the **9th IARU World Youth ARDF Championships 2027**.

Proposed dates:
29 June – 03 July 2027
Proposed venue:
Chișinău, Republic of Moldova

Estimated all-inclusive package price: €350 per person.

The Republic of Moldova is fully committed to providing excellent competition areas, high-quality event management, safe accommodation, efficient transportation and the warm hospitality for which our country is well known.

Our experienced organizing team, together with dedicated volunteers and partners, will make every effort to ensure that the Championships are conducted in full accordance with the highest standards of the IARU.

Yet our greatest ambition goes beyond delivering an outstanding competition.

We aspire to create an event where young athletes from every corner of the world will discover new friendships, experience different cultures and strengthen the unique spirit of the international ARDF family.

We hope that every participant will leave Moldova carrying not only medals, results and unforgettable memories, but something even more valuable: the conviction that friendship is stronger than borders, respect is stronger than differences, and sport has the power to unite people where words alone cannot.

We believe that every young athlete who returns home with friends from other nations becomes an ambassador of peace, mutual understanding and goodwill. This is how trust between nations is built—one friendship at a time.

It would be a great honour for the Federation of Radiosport of the Republic of Moldova to welcome the world's finest young ARDF athletes to Chișinău in the summer of 2027.

We sincerely hope that the IARU ARDF Working Group will give favourable consideration to our candidature. Together, let us offer the next generation not only a World Championship, but an experience that inspires lifelong friendship and contributes to a future built on mutual respect, cooperation and peace.
Because peace begins where young people become friends.

Yours faithfully,
Federation of Radiosport of the Republic of Moldova Chișinău, Republic of Moldova, 2026

To: THE INTERNATIONAL AMATEUR RADIO UNION, REGION 1
AMATEUR RADIO DIRECTION FINDING WORKING GROUP

LETTER OF INTENT

Dear Members of the IARU Region 1 ARDF Working Group,

On behalf of the Polish Amateur Radio Union (PZK), we hereby express Poland's interest in hosting the IARU World Youth ARDF Championship in 2028.

The proposed host area is Lubaczów County in south-eastern Poland. The championship would be prepared by Stowarzyszenie Sportowe Roztocze as the leading local organizer, in cooperation with Skierniewickie Stowarzyszenie Radioorientacji Sportowej and Tczewskie Stowarzyszenie Radioorientacji Sportowej, with the support of ARDF Poland and the relevant structures of PZK.

Lubaczów County offers extensive and varied forest terrain suitable for all youth ARDF disciplines, including the classic 3.5 MHz and 144 MHz competitions, sprint and foxoring. The area also provides accommodation, catering, educational and sports facilities that may serve as the championship centre.

The local organizing team has experience in preparing national and international radio-orienteering events, course planning, technical operations, refereeing, mapping and logistics. Cooperation with local authorities, forest administrations, schools, emergency services and institutional partners is also envisaged.

The proposed period for the championship is late June or early July 2028. A detailed organizational concept, including the exact dates, championship centre, transport arrangements, accommodation capacity, preliminary budget and participation fees, will be submitted after consultation with the IARU Region 1 ARDF Working Group.

We kindly ask the Working Group to confirm the applicable bidding procedure, deadlines and current organizational requirements for the 2028 IARU World Youth ARDF Championship.

PZK is ready to cooperate closely with the IARU Region 1 ARDF Working Group and to provide all further information required for the evaluation of Poland's candidacy.

We look forward to hearing from you.

Yours faithfully,

Marcin Iwaniuk SP6MI

Application for the hosting of
the IARU World Youth ARDF Championships 2029
in the Czech Republic

Czech Radio Club (CRC), represented by Czech ARDF Association, hereby applies to host the IARU World Youth ARDF Championships 2029.

CRC/Czech ARDF Association guarantees all technical and sports parameters of the event required by the IARU R1 ARDF Rules and IARU R1 regulations and will do the best to continue in the tradition of top level ARDF Championships set by the previous successful events (World Championships 2004 and 2023, IARU R1 Championships 2015 and EYAC/WYAC 2000,2005,2009,2013,2018, 2025).

Currently planned venue and date (will be precised well before the event):
Liberec (NW part of Czech Republic)
end of June 2029

Competition & terrains:
We will provide 2×classics & sprint. All competition areas would be up to a 45-minutes drive from the event center.

Transportation options:
The nearest international airport is PRG / Prague (140 km / 1h 40 min drive), the area is easily accessible by car or train.

Accommodation & board:
School-type / University campus accommodation will be provided to keep the prices at a reasonable level

Costs:
We will do our best to keep the price at the lowest possible level

Thank you for considering our bid.

TO: IARU R1 ARDF Working Group

Proposal for Bulgaria (BFRA) to Host the IARU World Championship ARDF 2029

Dear friends,
On behalf of the Bulgarian Amateur Radio Federation (BFRA), at the upcoming ARDF Working Group meeting, which will be held during the European Championship in Romania, and in accordance with item 7 of the agenda, I would like to propose that Bulgaria host the ARDF World Championship in 2029, for the following reasons:

Context: **In the midst of the COVID-19 crisis and other crises in Europe, Bulgaria — through BFRA — saved the ARDF international sports calendar by organizing the following events:**

- 2021 – IARU ARDF R1/European championship for all age categories, including the Youth Championship. This was held for the first time and proved to be a fairly successful experiment.
- 2022 – The designated host withdrew, and BFRA had to step in and organize the IARU ARDF World Championship.
- 2024 – A similar situation arose, and BFRA again took on hosting of the – IARU ARDF R1/European championship at short notice.

BFRA managed to organize all of these championships with only a few months of preparation, and despite this, they were held at a very high technical and competitive sporting level. Unfortunately, because of these repeated crises, participation numbers were low each time — an outcome that did not fully satisfy us as organizers, given the considerable effort we invested in keeping the international calendar intact.
Now that the situation is gradually normalizing, with indications that it will continue to improve, we would like to organize a memorable World Championship with the maximum possible number of participants — a true celebration of ARDF.

Our Proposal:
Our proposal and the considerations behind it are as follows:

- **Venue: Bansko**

Bansko is Bulgaria's winter sports center and offers an abundance of high-quality, affordable accommodation. The surrounding area is rich in natural, historical, and cultural landmarks. It lies about an hour and a half from Sofia, with the journey mostly along the highway.
Official Bansko website: https://bansko.bg/
Around Bansko there are dozens of square kilometers of existing orienteering maps, with more planned. The link below shows the orienteering maps currently available in the Bansko area.

Existing Bansko orienteering maps:
https://www.google.com/maps/d/viewer?mid=1c_G2MbWKj52aLsT-Qy3_6_8FKLUr1EU&ll=42.250617816318666%2C23.440804800000006&z=9

- **Timing:**

Mid-August 2029. Bansko has a rich festival calendar in the summer, and our championship would fit naturally into it.

- **Entry fee:**

We propose a fixed entry fee of €50 per start, which will not be changed under any circumstances. This low entry fee, combined with affordable accommodation, will make it possible to attract the maximum number of participants.

- **Financial Support:**

BFRA has received assurance from the Bulgarian Ministry of Youth and Sports that it will provide financial support for the championship, provided BFRA is confirmed as host at least one year in advance. This is one of the reasons we are able to propose such a low entry fee.

Pre-Championship Event:

Ahead of the official competition, a large open event will be organized on similar terrain, open to all age groups.

Conclusion:

Securing this hosting — of course, subject to coordination with the other regions — would bring BFRA great satisfaction, as the culmination of the efforts we have made over the past decades in developing the ARDF community.

President of BFRA

Viktor Tsenkov, LZ3NN

ZARZĄD GŁÓWNY
POLSKIEGO ZWIĄZKU KRÓTKOFALOWCÓW

Dear Members of the IARU Region 1 ARDF Working Group,

This letter is an application for recognition of Mr Jan Mazurek, SP8NFM, as an International ARDF Referee of the IARU.

Mr Mazurek has been actively involved in Amateur Radio Direction Finding since 1983, when he participated in his first ARDF competition. His activity therefore spans more than forty years and combines extensive experience as a competitor with the organization, refereeing and promotion of ARDF events in Poland.

He was a member of the Polish national team in Amateur Radio Direction Finding and was awarded the Master Sports Class in this discipline in 1987. He participated many times in Polish Championships and international competitions. These achievements are confirmed by a certificate issued by the Polish Amateur Radio Direction Finding Club of the Polish Amateur Radio Union on 20 April 1988.

He is the President of Stowarzyszenie Sportowe Roztocze, organizes national and international radio orienteering events and remains an active international competitor representing Poland. Taking into account his long-standing commitment, sporting, organizational and refereeing experience and contribution to the development of ARDF in Poland, we kindly ask the Working Group to consider his candidacy positively.

JAN MAZUREK – SP8NFM – CANDIDATE FOR INTERNATIONAL ARDF REFEREE

Area	English	Polski
Nationality	Polish	polska
Experience as a competitor	Since 1983 – more than 40 years	Od 1983 r. – ponad 40 lat
Experience as organizer	Organizer of national and international ARDF events; period to be confirmed by ARDF Poland / PZK	Organizator krajowych i międzynarodowych zawodów ARDF; okres do potwierdzenia przez ARDF Poland / PZK
Experience as an ARDF referee	Refereeing experience in ARDF competitions; exact period to be confirmed by ARDF Poland / PZK	Doświadczenie sędziowskie w zawodach ARDF; dokładny okres do potwierdzenia przez ARDF Poland / PZK
Sporting qualification	Member of the Polish national ARDF team; Master Sports Class awarded in 1987	Członek kadry narodowej ARDF; klasa mistrzowska uzyskana w 1987 r.
International activity	Multiple participant in Polish Championships and international competitions; active international competitor representing Poland	Wielokrotny uczestnik Mistrzostw Polski i zawodów międzynarodowych; aktywny zawodnik reprezentujący Polskę

Attachment: Certificate issued by the Polish Amateur Radio Direction Finding Club of the Polish Amateur Radio Union, dated 20 April 1988, confirming membership of the Polish national team, award of the Master Sports Class in 1987 and participation in Polish Championships and international competitions.

Best regards,

Marcin Iwaniuk SP6MI
v-ce president PZK for sport

ARDF RULES CHANGES PART B , Ar cle 24.2

Original text:

24.2 Start number bibs shall be clearly visible and be worn on the upper part of the body and on the back and front of the competitors. The bibs shall not be larger than 25*25 cm with figures at least 14 cm high. The bibs may not be folded or cut.

Proposal by Marc ON6HI:

24.2 Start number bibs shall be clearly visible and be worn on the upper part of the body and on the back and front of the competitors. The bibs shall be made of shear proof, water repellent polyethylene such as Tyvek, not smaller than A5 (or half letter) size, with figures at least 50% of the bib size high, in black colour on a clear white background, type style Arial Bold or Helvetica Bold "

IARU R1 ARDF WG
Dusan Ceha YU1EA, the Chairman

CRC proposal - TX codes used at Sprint competition:

The S code is not allowed any more in Czech Republic (just MOE-MO5+MO codes) for unmanned ARDF beacons.
I do not know what is the situation in other countries (at least ARDF active).

The proposal was to allow alternative use of the following codes:
“slow MO” code (50 PARIS) for spectator control.
“fast MO” code (70 PARIS) for the finish beacon.
The frequency plan would remain unchanged. The proposed codes were considered logical and consistent with the codes used for other field controls in the Sprint competition.
Decision: The ARDF WG noted that organizers of IARU ARDF Championships must comply with national regulations in addition to the IARU ARDF Rules. Before any possible changes are made to the Rules or Technical Specifications, the actual situation in the Member Societies should be surveyed.
The ARDF WG therefore requested all WG members to check the national radiocommunication regulations in their countries, particularly those applicable to unmanned ARDF beacons, including band-plan segments, permitted codes, RF power and any mandatory callsign requirements.
The collected information may, if necessary, result in amendments to the Technical Specifications of ARDF Equipment. In the meantime, any necessary deviations from the Rules must be approved by the ARDF WG and announced in the event Bulletins.

Action:
All ARDF WG members, Coordination: Jiri Marecek OK2BWN
Deadline: end of October 2026
